

Dear Friend,

Thank you for your interest in our assisted living facility, Graceland Gardens. Our residents are individuals who cherish independence, but who have reached a time in their lives when they need or desire assistance with activities of daily living.

This website describes Graceland Gardens and the services we offer. We have included our application, and a financial information form.

The decision to move to a new residence can be very stressful. Our staff is here to help ease this process in any way we can. Please call me at 732-658-6466 for information or a personal tour.

Sincerely,

Jeanne Selby
Executive Director
